

❖ **Product Description:** PS-19GB-1 is a highly filled calcium carbonate masterbatch. The carrier is polyolefin and Due to its very good dispersion, it can be used in thin film applications. This grade has good compatibility with polypropylene resins.

❖ **Application:** PP and PE sheets and films, injection moulded parts, raffia.

TEST ITEM	UNIT	Value	METHOD
MFI (190 °C, 2.16kg)	gr/10min	1.2	ISO 1133
Density	gr/cm ³	2	ISO 1183
Ash content(600 °C, 30min)	%	84±2	ISO 3451-1
Moisture	%	<0.1	ISO 15512
Dispersion	-	ok	MPPC Method

Storage & Packaging:

- Store in dry place 30 °c away from sun exposure not to exceed 12 months.
- Packed in 25Kg bags.
